The Fan Museum

Project

A Fanfare for the Sun King:
Unfolding Fans for Louis XIV

Case Study

Following on from the successful production of the Fan Museum catalogue, TMI worked in association with the museum on the design and production of an extensively researched and beautifully illustrated publication, presenting over forty fans and fan leaves, dating back from the reign of Louis XIV.

The publication was runner-up in the 2003 Art Newspaper and AXA Art Catalogue Awards.

Feedback

"Pam Cowen's new book on the painted fans of Louis XIV's Court brings a neglected subject vividly to life. As well as dazzling the eye, she shows how these fans evoke the very essence of the Sun King's splendours".

– Dr Thomas Cocke, Chief Executive, NADFAS
